

About Closer to Eden

Closer to Eden is a small design studio located outside of Philadelphia, PA, dedicated to providing design consultation and layout/design services to corporate, non-corporate and non-profit organizations. Owner Marjorie Trager has sixteen years of design experience in the corporate world. That means sixteen years of working with tight time frames and limited budgets, and finding creative solutions to new challenges. It also means sixteen years of developing relationships with other talented designers, marketing professionals, writers, editors, proofreaders, vendors and the like. She can, and does, bring in these resources as projects require them, to ensure that every aspect of the end result shines.

Clients include BearingPoint, Annenberg School of Communication, Cap Gemini, PMSI, Clarkston Consulting, QlikTech, Breaux Vineyards, and Habitat for Humanity and Planned Parenthood of Chester County, PA. Closer to Eden specializes in the conception, design and layout of brochureware, identity systems, logos, event materials, newsletters, and annual reports. Whether you are looking for a designer who can create a logo that perfectly expresses your business, help you reach your market with brochures or point-of-sale materials, or just develop cut sheets using your company's visual identity, Closer to Eden can help.
